- choose from these tote tray colours

## HOW TO CHOOSE:

- you can specify any of the colours on pages 41 and 42 at no additional cost. Decide whether you would like your furniture in a single colour, or two-tone!

## ABOUT BEPARTA

Since 2014, Beparta have been creating flexible, innovative school furniture. We have worked on 1,000s of school projects, ranging from full new school builds and major refurbishments to individual classrooms or top-ups requiring just 1 or 2 pieces of furniture.

We have accumulated a lot of experience in designing classroom spaces and we would love to share what we have learnt with you. Please ask for a complimentary consultation, so that we can discuss with you the furniture pieces that best facilitate your pedagogy and work in your specific school environment. We can offer alternatives to suit your budget and also help with planning, if you need to renovate your learning space in stages over several years.

We support all types of schools with choosing furniture to facilitate their vision and ethos - Public, Catholic and Independent schools (including all religions and secular schools). We help schools, big and small.

We deliver Australia-wide and have collaborated with schools in all states and territories of Australia - everywhere from schools in major cities to schools in rural and remote areas.

Our furniture is available under NSW contract 771, with discounts available to NSW public schools. We are also a supplier under Western Australia's CUAFRN2017 contract, with free shipping to Perth metro for WA public schools.

## LEAD TIMES, MANUFACTURING QUALITY AND ENVIRONMENTAL MANAGEMENT

Almost every part of our furniture is made in Beparta's state-of-the-art manufacturing facility in Chipping Norton, South-West Sydney. We are extremely proud to be creating local, Australian jobs. We hope that some of the students who are using our furniture now will one day come and work with us.

Our manufacturing facility has unusually broad capabilities - we combine CNC, edgebanding and woodwork with a metal fabrication unit, a cut & sew team and upholstery and assembly. Our team is highly skilled and diverse, and our team leads have 30-40 years experience in their respective specialities. We are ISO 9001 certified for Quality and ISO 14001 certified for Environmental Management.

Because we manufacture almost everything in-house, we can offer you highly competitive prices.

And because we have control over our manufacturing, we can offer lead times of 4-6 weeks - the best in the business!

We use FSC certified and E0 emissions laminates and woods and GECA approved foam. We are careful to save energy and water. We offer textiles made of recycled fabric. We manufacture to your order, incorporating the materials and finishes you choose, so if you love a particular environmentally friendly textile or material, please let us know!

## JOINERY SERVICES AND BUILT-INS DESIGN

As you will see throughout this brochure, we have greatly expanded our joinery services and the built-ins we can offer, over the last couple of years. We can create all the furniture pieces in the pictures for you - the storage in the background is something we make, too!

Due to our manufacturing capabilities, we can offer you amazing prices for joinery work, whether you need walls of built-ins for every classroom, or just an extra cupboard to fit in an awkward place. We have a team of 5 designers so we can help you with figuring out the best joinery for the space you have.

If you are an architect or specifier, we also have CAD files that are extremely easy to use and can assist you in planning walls of built-ins and joinery.
